## SKILLS

- PYTHON
- HTML
- CSS
- JAVASCRIPT
- TAILWIND CSS
- MERN Stack
- Rest API
- DSA
- AI/ML

## LANGUAGES

- ENGLISH
- HINDI

## PROFILE

Hello! I'm Shubham, a passionate full stack developer with expertise in creating visually stunning and user-friendly web applications. With a strong foundation in HTML, CSS, JavaScript, Tailwind CSS and MERN, I enjoy turning complex problems into simple, beautiful designs. My goal is to build engaging digital experiences that meet the needs of users.

## MY PROJECTS

- MediAlert

An Emergency Health Assistant web app with features like SOS alerts, live location tracking, symptom checker, first aid guides, and multi-language support.

- Healthify

Description: Developed the frontend of a web application called Healthify during a hackathon. The application uses AI to suggest medications based on user symptoms.

- Cloudnotes

Description: A web-based notes application where users can store and manage their notes securely using MERN Stack

- NewsWave

Description: A responsive website that aggregates the latest news from various sources and categorizes it for users using MERN and REST API.

## MY ACHIEVEMENTS

- Secured 2nd position at the Matrix 2.0 Hackathon for developing a healthcare-focused project aimed at summarizing medical reports in simple terms.
- Top 20 out of 2000+ teams in Execute 4.0 Hackathon at DTU.
- Topper in Physics in CBSE Board Class 12th.
- 97.56%ile in JEE Mains Examination.
